

# Lagalt Website Usermanual

## Table of content:

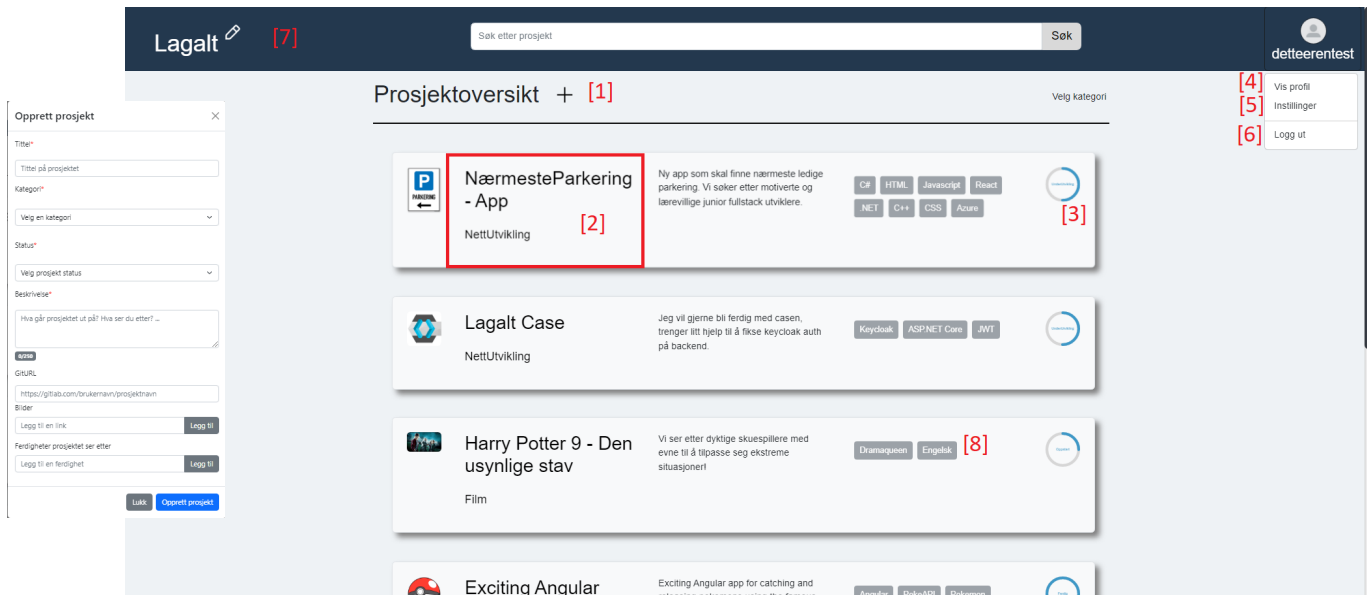

1. Main page interface
  - a. Not logged in
  - b. Logged in
2. Profile interface
  - a. Settings
3. Project interface
  - a. Not a contributor
  - b. Project owner
  - c. Project contributor
    - i. Chat

# Main page interface (Not logged in)

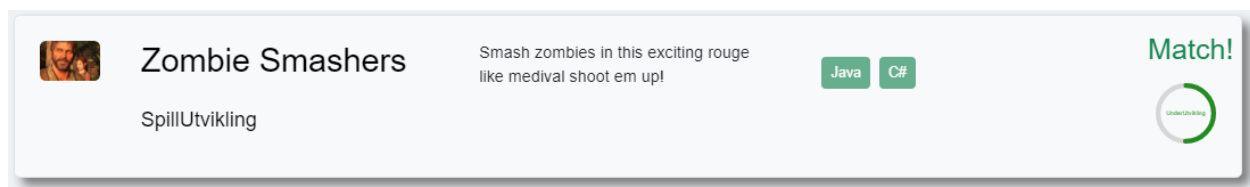

In the mainview of the page you can view simple banners of projects created by users, you can filter by category[1], search [2] and log inn[3]

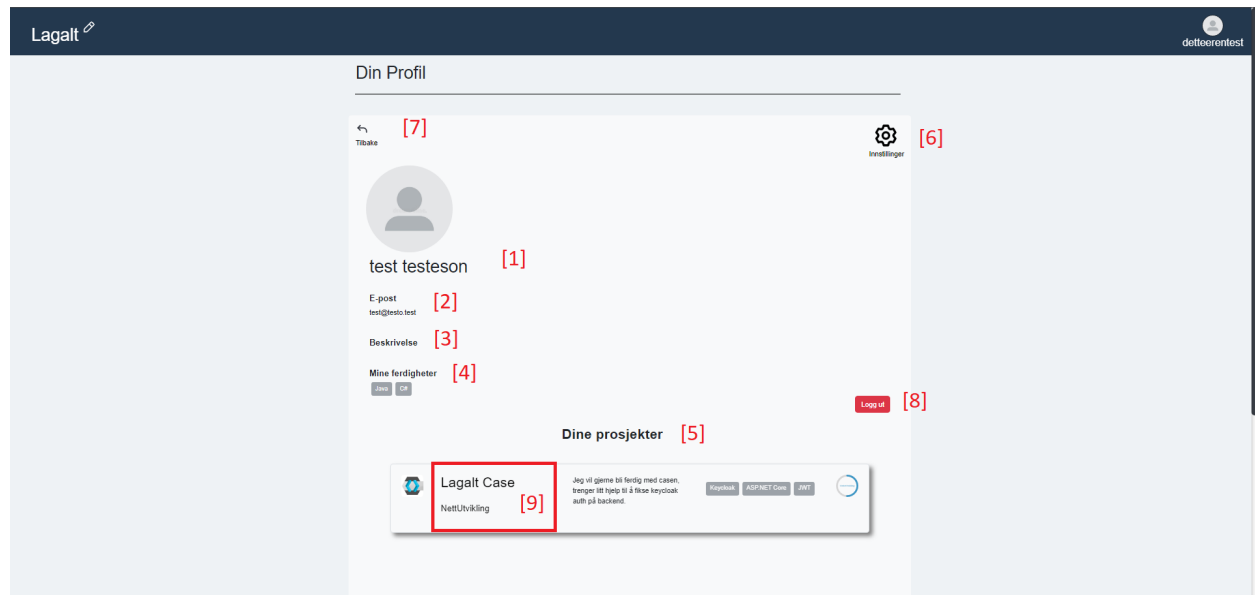

# Main page interface (Logged in)

In the mainview after you have logged in you can create a project [1], the form for this is shown on the left of this image. Click on a specific project to view more info and contributors [2], view the progress of a project [3]. View profile, edit profile and log out [4] [5] [6]. You can also reset the search by pressing the logo [7], in addition to all this the skills of a project will show up as green if you have the same skills registered to your profile [8] and if all the skills match it will tell you its a match!

# Profile interface

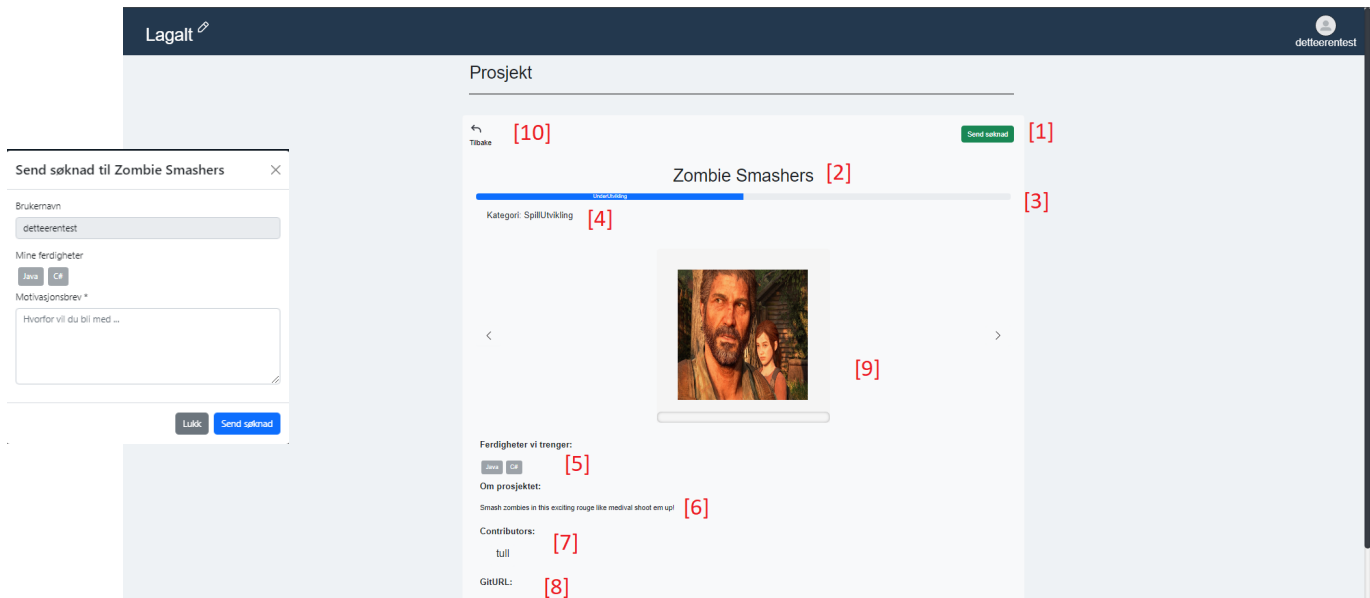

In the profile page you can see your first and last name after you have registered [1], email [2], description/portfolio [3], your registered skills [4], the projects you are contributing to [5]. You can also edit your profile from this page [6] and go back to the previous page [7]. You can log out [8] and click on a project you are contributing to like in the mainview [9].

## Profile interface (Settings)

The screenshot shows a web interface for editing a profile. At the top, the title "Rediger detteerentest sin profil:" is followed by a close button "x" and a red annotation [6]. Below the title, the "Profilstatus:" section has two buttons: "Privat" (red) and "Offentlig" (green), with a toggle switch in the "Offentlig" position and a red annotation [1]. The "Beskrivelse:" section features a large text area with a red annotation [2]. Below the text area is a search bar with the placeholder "Legg til en ferdighet" and a red annotation [3]. To the right of the search bar is a "Legg til" button. Below the search bar, there are two skill tags: "Java" and "C#", each with a red "x" icon for removal, and a red annotation [4]. At the bottom right, there is a blue "Lagre" button with a red annotation [5].

In the settings page you can change your profile status between private and public [1], edit your description/portfolio [2], add your own custom skills [3], remove the skills by pressing the x in the corner of a skill [4], save your changes [5] and exit the settings menu [6].

# Project interface (Not a contributor)

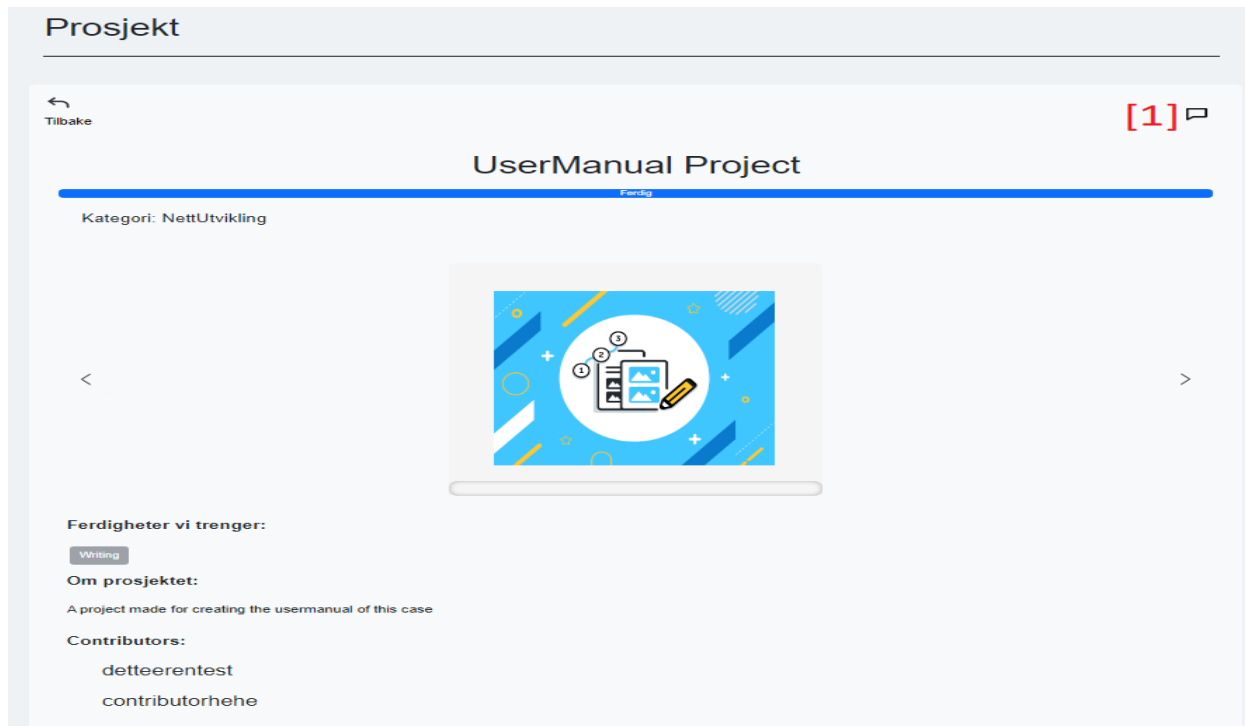

When viewing a project as a user that is not in a project you can send an application [1] and the interface for that is shown on the left side of this picture. You can view the title [2], the progress [3], the category [4], the skills they need [5], the description [6], the contributors [7], the git url if it has one [8] and view all the images [9] by either pressing the arrows on the side or using the scrollbar at the bottom of the image.

# Project interface (Project Owner)

The screenshot displays the 'UserManual Project' interface for a project owner. At the top, there is a 'Tilbake' button and a 'Behandle søknader' button labeled [1]. A chat icon labeled [2] is also present. The project title 'UserManual Project' is centered, with a 'Ferdig' status bar below it. The category is listed as 'NettUtvikling'. A central graphic shows a document with a pencil and a lightbulb. On the left, a sidebar titled 'Behandle søknadene for: UserManual Project' lists applicant details: Fornavn: tull, Etternavn: sdads, Epost: tull@trt.com, Brukernavn: contributorhehe, Beskrivelse: Ferdigheter: let me in, and Søknadsbrev: let me in. It includes 'Avslå' and 'Aksepter' buttons. On the right, a 'Her kan du redigere UserManual Project' panel allows editing the project title, description, GitURL, category, status, and adding links or skills. A 'Rediger prosjekt' button labeled [3] is at the bottom right. The main content area shows 'Ferdigheter vi trenger: Writing', 'Om prosjektet: A project made for creating the usermanual of this case', 'Contributors: detteerentest' labeled [4], and 'GitURL:'. A 'Lukk' button is at the bottom left.

When you are the owner of a project you will get a few more buttons, one for treating applicants [1], one for the chat area of a project [2] (this is also available for contributors), the ability to edit a project [3] and you can view the profile of other users [4]

# Project interface (Project Contributor)

As a contributor you have access to everything a normal user has but in addition you can enter the chat area [1]
